INTERNATIONAL NETWORK
INWIC
OF WOMEN IN COOLING

Discover a career in the refrigeration, air conditioning and heat pump (RACHP) sector and join the women shaping a sustainable future.

Why join INWIC?

Connects women across countries and careers

Offers mentorship opportunities

Shares success stories and resources

What kind of jobs?

You could be a designer, salesperson, project manager, engineer, installer, technician, policy or environmental consultant, energy efficiency specialist, among other positions.

Why choose a career in RACHP?

The RACHP industry is at the heart of global health and climate action. It's about:

Cooling hospitals, homes, and vaccines

Ensuring safe and efficient food refrigeration

Addressing global challenges like climate change and food security

Developing green, energy-efficient solutions

Earning a strong, stable income in a growing industry

This field offers financial security, global demand, and opportunity. And it needs fresh minds, new perspectives and women like you.

Women in the Industry

"As a Refrigeration Project Consultant, I enjoy a role that's both challenging and rewarding. The variety of managing projects, coordinating teams, and ensuring compliance. The RACHP sector offers real-world impact and room to grow."

– Caitlin Earle
Project Consultant
AMinstR from UK

"I chose the RACHP sector to create climate-conscious, inclusive cooling. At YIWATECH, we're redesigning air conditioning for under-served markets – bridging the gap between affordability and quality of life with solutions tailored to sub-Saharan Africa."

– Olivia Samuyiwa
Founder | Engineer
YIWATECH from Africa
